SALINERA BEACH

Bioenergetic resort

Salinera Resort Strunjan is located in the heart of a green, natural environment, blessed with the mild Mediterranean climate. The Resort is located next to the Nature Park Strunjan, a natural reserve and home to many plant and animal species. It is also part of the unique natural and cultural heritage of the Slovenian Istria. The resort guests can simply walk to the park and start exploring! The connection of the resort with its natural environment is also reflected in the bioenergetic park that is located within it. Meditation at the bioenergetic points will help you regain your balance. Our guests love to return to this peaceful green bay to recharge their batteries through living in harmony with the nature and a lot of activities in the fresh sea air.
